

CANCER IMPACT FUND

**Incubation Stage
Chief Technology Officer**
(part-time, contract position)

To apply, please send your resume to careers@cancerimpactfund.com

About the Cancer Impact Fund - The Cancer Impact Fund (CIF) is the first early-stage impact venture capital fund designed to impact cancer by developing innovations and commercializing promising cancer research for preventions, therapies, cures, and enabling technologies. Learn more at www.CancerImpactFund.com.

About ITRTV - CIF is seeking an outstanding incubation stage CTO candidate with a proven track record to lead Research and Product Development for one of its portfolio companies, "ITRTV". The company is entering the incubation stage with a research and development platform for wearable technologies, sensors and sensor enabled applications for health and wellness. During this stage, efforts will be focused on validating the customer market, developing marketing and sales channels, obtaining initial revenues, and building the supply chain.

About the Position - Successful CTO's may have the opportunity to continue on as the acceleration stage CTO, or join CIF or one of its other portfolio companies on a part-time or full-time basis. Incubation stage CTO's can expect to work 5-10 hours per week at the CIF offices, remotely, and offsite at events and meetings. Under the direction of the company's CEO, the CTO's key responsibilities include:

- Collaborate with the CEO and incubation team to develop the company's supply chain, deliver first inventory of product, and launch customer software platform
- Manage product development team members to effectively validate beachhead market, gather feedback, and incorporate in succeeding prototype generations.
- Support Sales and Marketing Teams in obtaining initial revenues.
- Develop and maintain detailed knowledge and insight about ITRTV's beachhead market, technology trends, and a complete understanding of customer needs
- Develop, introduce and maintain strategically benchmarked processes to ensure market competitiveness, an understanding of trends, and detailed knowledge of competitor products and processes.
- Refine and manage research and development budget
- Collaborate with the Marketing Team to create and manage the product roadmap
- Develop, measure and report key metrics regarding technology strategy to CEO and BOD
- Discover and establish key strategic partnerships and relationships for related external technology
- Develop incubation strategy, plan, and budget for beta prototypes plus additional inventory
- Discover and implement new technologies that yield competitive advantage.
- Develop preliminary acceleration stage product launch plans, budgets, and team requirements
- Collaborate with BOD to identify acceleration stage CTO and support management transition

About you - We are seeking an experienced, entrepreneurial, and hands-on CTO with strong leadership skills, experience developing new products and launching new ventures, and the ability to manage the incubation stage of our proprietary commercialization process. You have a demonstrated interest in bringing innovation to health, health care, fitness, wellness, or wellbeing.

Qualifications

- Proven track record of building and managing successful teams of 5-10 people preferred
- Experience developing platforms, products or solutions for research in the areas of health, healthcare, fitness, wellness, or well being preferred
- 15+ years of experience leading research and/or product development efforts for startup or early-stage companies

CANCER IMPACT FUND

- Ability to lead and work as part of a team and collaborate with BOD, strategic partners, incubation team members, clients, and prospects.
- Demonstrated ability to work independently and self-manage executive assignments
- Highly organized, with the initiative and ability to work with limited supervision; excellent analytical skills and attention to detail, effective process management abilities.
